SKS Technologies recently completed an Audio Visual fit out of the new world class \$41million facility for Cricket Victoria. These facilities will house player teams from, Victorian Bush Ranges, Melbourne Stars, Melbourne Renegades, Victorian Spirit (woman's League) and Cricket Australia.

The facilities Audio Visual consists of a 4 person multipurpose space with integrated Crestron control via iPad control to join and unjoin the space to make either 4 individual meeting rooms or one large event space overlooking the ground from the second level. Video presentation to this space consists of an IP TV solution that can show, Foxtel, MATV, direct ground camera feed, and direct Source input from laptop or wireless presentation.

Also within the facility are 25+ meeting rooms which consist of simple 4 person meeting rooms to large boardroom with Video Conferencing capability. Each space consists of a wall mounted LCD for direct presentation from device or ability to access the IPTV solution for game days, and any other major sporting events. The larger Boardroom spaces comprise of an 86 inch Microsoft Surface for seamless user sharing of presentations at other Cricket Australia facilities and partners.

The final major space is an indoor wicket training and event hire space. This space has a PA audio system to allow music and announcements to be heard through the 10 wicket indoor area, for coaches and training staff to speak with players in each wicket. They have the ability to record 4 of the 10 wickets to a viewing room and playback recordings, or live video to the 6 LCD scattered through the indoor wicket area. This space is also adjoined to a full professional Gym area with PA audio with music selection available for each team using the facility to select training specific audio.
