

# Joan Kirner Hospital

CATEGORY: HEALTH

SKS Technologies has recently completed the Audiovisual project for Joan Kirner Women and Children's hospital.

The new Joan Kirner Women's and Children's Hospital is a multi-storey facility with 20 labour delivery rooms, 39 Special Care Nursery cots, 64 women's inpatient beds, 32 children's inpatient beds, four operating theatres and additional outpatient clinics. As part of the project, 55 existing acute adult inpatient beds at Sunshine Hospital will also be refurbished.

The new hospital consolidates inpatient and outpatient women's and children's services at Western Health and will enable more women and families in Melbourne's west to give birth and access children's services closer to home.

The Joan Kirner Women's and Children's Hospital will be located on the eastern side of the Sunshine Hospital site, in between the Radiotherapy Centre and the Community Based Rehabilitation Centre.
