

# LCI Academy Melbourne

**CATEGORY: EDUCATION**

LCI Melbourne is part of the LCI Education network, allowing students and staff to connect to a 12,000 strong creative network around the globe. LCI's mission is to offer a high quality alternative to existing tertiary education in the Arts in universities. Offering innovative specialist undergraduate and post graduate programs relevant to the needs of graduates and the industry. There major studies include Visual Arts, Fashion and Costume design, Interior Design, Filmmaking and Photography and Graphic Design.

SKS technologies were engaged to fit out the new Melbourne Campus in Oxford St Collingwood.

The project involved the installation and commissioning of; 12 interactive Teaching spaces comprising of an interactive whiteboard, sound reinforcement and Crestron control for teachers to engage students in lectures.

A boardroom which utilises Cisco VC equipment, Bayer Dynamic microphones, Crestron switching and control to keep staff in contact all over the globe.

A Large scaled event space using multiple NEC projectors, Quest sound reinforcement, Audio technical microphones, Crestron switching and Control giving them the ability to host gallery openings and fashions shows whilst streaming them live online.

Digital signage LCD's including a 3x1 video wall were installed to provide advertising and updates for students and staff throughout the campus.
