

LinkedIn

SKS Technologies was awarded the contract to complete the LinkedIn Melbourne audio visual fitout at Level 20, 60 City Road.

The project involved the installation and commissioning of multiple meeting rooms comprising of Cisco VC equipment and Extron Electronics transmission and switching. The Cisco units varied from DX80's and MX200's to MX800S/D configurations along with two Boardrooms utilising SX80 Codecs and Sharp commercial LCDs.

Digital signage LCDs were installed to provide updates to staff and a lunch/gaming area entertainment system for social activities.
