

The Eminence

CATEGORY: COMMERCIAL

SKS have recently completed the audio-visual services for The Eminence - a \$40 million, state-of-the-art commercial and retail building in the thriving James Street precinct on the edge of New Farm/Fortitude Valley, Brisbane.

The Eminence is a joint venture between Mosaic Property Group and Pellegrino Group Australia and is a trophy commercial asset and headquarters for both companies.

SKS were engaged early in the design process and took a consultative approach, working closely with stakeholders to create the technology solution design. The systems included meeting rooms with video conferencing, a high-end boardroom and a stunning sales lounge.

The sales lounge included a 4 metre wide custom built 16:9 projection wall, with high brightness ultra-short throw projector. This space could also be combined with adjacent rooms via operable walls so that the areas may be used flexibly and opened up for larger events.
